

# PowerEdge R750 Rack Server Sun

## COMPONENTS

| Option                                          | Selection                                                                             |
|-------------------------------------------------|---------------------------------------------------------------------------------------|
| Base                                            | PowerEdge R750 Server                                                                 |
| FRONT STORAGE                                   | Chassis with up to 24x2.5" Drives                                                     |
| BACKPLANE                                       | SAS/SATA Backplane                                                                    |
| REAR STORAGE                                    | No Rear Storage                                                                       |
| GPU ENABLEMENT                                  | No GPU Enablement                                                                     |
| Trusted Platform Module                         | Trusted Platform Module 2.0 V3                                                        |
| Chassis                                         | 2.5" Chassis with up to 24 SAS/SATA Drives, 2 CPU                                     |
| Processor                                       | Intel® Xeon® Gold 6346 3.1G, 16C/32T, 11.2GT/s, 36M Cache, Turbo, HT (205W) DDR4-3200 |
| Additional Processor                            | Intel® Xeon® Gold 6346 3.1G, 16C/32T, 11.2GT/s, 36M Cache, Turbo, HT (205W) DDR4-3200 |
| Processor Thermal Configuration                 | Heatsink for 2 CPU configuration (CPU greater than or equal to 165W)                  |
| Memory Configuration Type                       | Performance Optimized                                                                 |
| Memory DIMM Type and Speed                      | 3200MT/s RDIMMs                                                                       |
| Memory                                          | 32GB RDIMM, 3200MT/s, Dual Rank, 16Gb BASE x8                                         |
| RAID                                            | C7, Unconfigured RAID for HDDs or SSDs (Mixed Drive Types Allowed)                    |
| RAID/Internal Storage Controllers               | PERC H755 for 2.5" x24 SAS/SATA chassis                                               |
| Hard Drive                                      | 2.4TB 10K RPM SAS ISE 12Gbps 512e 2.5in Hot-Plug Hard Drive                           |
| BIOS and Advanced System Configuration Settings | Power Saving Dell Active Power Controller                                             |
| Advanced System Configurations                  | UEFI BIOS Boot Mode with GPT Partition                                                |
| Fans                                            | Standard Fan x6                                                                       |
| Power Supply                                    | Dual, Hot-Plug, Fully Redundant Power Supply (1+1), 1400W, Mixed Mode                 |
| Power Cords                                     | C13 to C14, PDU Style, 12 AMP, 6.5 Feet (2m) Power Cord, North America                |
| PCIe Riser                                      | Riser Config 1, 6x8, 2x16 slots                                                       |
| Embedded Systems Management                     | iDRAC9 Datacenter 15G with OpenManage Enterprise Advanced                             |
| OCP 3.0 Network Adapters                        | Intel E810-XXV Dual Port 10/25GbE SFP28, OCP NIC 3.0                                  |
| Additional Network Cards                        | Intel X710-T4L Quad Port 10GbE BASE-T Adapter, PCIe Full Height                       |
| Bezel                                           | PowerEdge 2U LCD Bezel                                                                |
| Boot Optimized Storage Cards                    | BOSS-S2 controller card + with 2 M.2 480GB (RAID 1)                                   |
| Quick Sync                                      | No Quick Sync                                                                         |

|                        |                                                                   |
|------------------------|-------------------------------------------------------------------|
| Password               | iDRAC,Factory Generated Password                                  |
| IDRAC Service Module   | None                                                              |
| Group Manager          | iDRAC Group Manager, Disabled                                     |
| Operating System       | No Operating System                                               |
| OS Media Kits          | No Media Required                                                 |
| Database Software      | None                                                              |
| Enabled Virtualization | None                                                              |
| Secondary OS           | None                                                              |
| Internal SD Module     | None                                                              |
| Additional Software    | None                                                              |
| Rack Rails             | ReadyRails Sliding Rails With Cable Management Arm                |
| System Documentation   | No Systems Documentation, No OpenManage DVD Kit                   |
| SHIPPING               | PowerEdge R750 Shipping                                           |
| Shipping Material      | PowerEdge R750 Shipping Material                                  |
| Regulatory             | PowerEdge R750 CE and BIS Marking, No CCC Marking on 2.5" Chassis |
| IDSMD Card Reader      | None                                                              |
| OEM Regulatory         | None                                                              |

## SERVICES & SUPPORT

| Option                                       | Selection                                                         |
|----------------------------------------------|-------------------------------------------------------------------|
| Warranty                                     | Basic Next Business Day 36 Months, 36 Month(s)                    |
| Extended Services                            | ProSupport Plus and Next Business Day Onsite Service, 60 Month(s) |
| Keep Your Hard Drive for Enterprise Services | None                                                              |
| Keep Your Component for Enterprise Services  | None                                                              |
| Dell Services: On-site Diagnosis Service     | None                                                              |
| Partner Operations Support                   | None                                                              |
| Configuration Services Asset Report          | None                                                              |
| Enterprise Deployment Services               | Basic Deployment Dell Server R Series 1U/2U                       |
